## Spring 2016

## **Computer Science Exam, Part B**

1) (10pts) ANL (Algorithm Analysis)	
Determine the $\underline{\textit{best case}}$ run time in terms $n$ for each of the following functions/operations.	
a) Finding the maximum value in an unsorted linked list of $n$ elements	
b) Inserting an item into a binary search tree of <i>n</i> elements	
c) Inserting an item into a binary heap of <i>n</i> elements	
d) Sorting an array of <i>n</i> elements using Merge Sort	
e) Deleting an element from a circular linked list of $n$ elements	
Determine the $worst case$ run time in terms of $n$ for each of the following functions/operations.	
f) Deleting an item from an AVL tree of <i>n</i> elements	
g) Deleting the minimum item from a binary min heap of $n$ elements	
h) Inserting an item into a binary search tree of $n$ elements	

i) Sorting an array of n elements using Heap Sort

j) Deleting an element from a doubly linked list of n elements
